

Blogger Buster Christmas - Free Blogger Template

Blogger Buster Christmas is a free Blogger template designed by Amanda of [Blogger Buster](#). Created to celebrate the Christmas of 2010, this template offers a featured content section which appears only on the home page of your site, and is compatible with all of Blogger's latest features.

[Demo](#) | [More Information](#)

Template Features:

- Festive colour scheme and overall design
- Featured Content/Gadget sections which only appear on the home page
- Compatible with the new Blogger Template Designer to easily alter the layout, width, gadget sections, etc.
- Festive icons included in the original design
- Makes use of Google Web Fonts for added style of headings and blog title

Installation Instructions

How to upload your new template

www.bloggerbuster.com

1. Extract the contents of **blogger-buster-christmas.zip** to your hard drive
2. Log into Blogger.com and select the blog for which you want to install your template
3. Go to **Design>Edit HTML** and click the Upload link near the top of the page
4. Locate **bb-xmas.xml** on your hard drive and select this template to upload
5. Choose whether or not to retain any gadgets which are not included in your new template. If you choose to keep these gadgets, they will appear in the Page Elements section of your blog dashboard after upload.
6. Enjoy your newly uploaded template!

All of the images used in this design are hosted on Picasa Web Albums. If you prefer, you can change these background images to those of your own design by editing the template's HTML code.

How to add gadgets to the Featured Content section

Go to **Design>Page Elements** in your Blog dashboard. Choose to add a new gadget in each of the three gadget-ready areas below the header section.

You can add any type of gadget in this section, such as Text, Image or AdSense. In the demonstration template, I added HTML/JavaScript gadgets populated by Lorem Ipsum text to demonstrate how these gadgets will appear.

To change the layout of your blog

Simply go to **Design>Template Designer** in your Blog dashboard and select the design aspect of your blog you wish to change. Most aspects of this template can be easily altered using the Blogger Template Designer, such as font and background colours, width and layout style.
