

## Installation and Setting "White Slide" Template

Attention : To avoid some error, better you make a new blog. But if you want to replace your old template, do not forget to back up your old template (download your old template)

**For Editing, Open Edit HTML and give the checklist at Expand Widget Templates**

### Setting Favicon

- Favicon is an URL icon that will appear at browser address.
- First you have to upload your icon size 32x32 pixel to image hosting such as photobucket.com.
- Find this code.  

```
<link  
href='http://i306.photobucket.com/albums/nn252/cebong_ipit/templatecokolatos/favicon.png' rel='shortcut icon' type='image/x-icon'/>
```
- Replace the **red code** by your own image URL

### Setting Navigation Bar/ Top Menu

**MENU >>>**

- Find this code  

```
<!-- MENU -->  
<div id='menu'>  
<li><a expr:href='data:blog.homepageUrl'>Home</a></li>  
<li><a expr:href='data:blog.homepageUrl + &quot;feeds/posts/default&quot;'>Posts  
RSS</a></li>  
<li><a expr:href='data:blog.homepageUrl +  
&quot;feeds/comments/default&quot;'>Comments RSS</a></li>  
<li><a href='http://ipietoon.blogspot.com'>Template</a></li>  
<li><a href='http://cebongpiet.blogspot.com'>My Notez</a></li>  
<li><a href='http://'>Edit</a></li>  
</div>  
<!--END MENU-->
```
- Replace the **red code** by your own link
- Note : You can add your link as many as you need by adding this code  

```
<li><a href='http://'>Edit</a></li>
```

## Setting Blog Title

- Find this code

```
<!--Change Your Own Title-->
<div id='logo'><a expr:href='data:blog.homepageUrl
&quot;feeds/posts/default&quot;'>Video Blogging</a></div>
<!-- End Title -->
```
- Change the red code by your own blog title

## Setting Message Box at Right Sidebar

- Upload your own photo size 80 x 100 pixel to imagehosting such as photobucket.com
- Find this code

```
#msgbox {
width:280px;
float:right;
margin:auto 0px auto;
border:none;
height:200px;
border:1px solid #dfdfdf;
background:#f2f2f2
url(http://i306.photobucket.com/albums/nn252/cebong\_ipit/NewPicture21.png
) no-repeat right center;
text-align:left;
padding:5px 85px 20px 20px;
font-family:"Century Gothic";
}
```
- Replace the red code by your own URL image
- For setting your word, find this code

```
<div id='msgbox'>
<h2>Whatzap</h2> You can put your quote, message, status here. Just like
Quote of The Day
</div>
```

- Change the **blue code** by your title for example: Quote of The Day, My Status, My Message
- Change the **red code** by your words

### Setting Photo Slide

- Find this code

```
#myslides{
background:none;
}
.stepcarousel{
position: relative;overflow: scroll;
width: 520px; /*adjust this width to your blog element size*/
height: 165px;margin: 0px 14px 5px 14px;background:none;
}
```

Note : you can customize slide size by adjust width and height

- For customizing panel size (panel is image box/border) you can adjust this code
 

```
.stepcarousel .panel{
float: left; overflow: hidden; margin: 10px 17px ;
width:200px; background:#F2F2F2;
height:140px; border:1px solid #DFDFDF;
```
- Upload your image to imagehosting, image size is about 120x180 pixel or smaller (you can adjust to your preference)
- Find this code

```
<div class='stepcarousel' id='mygallery'>
<div class='belt'>
<div class='panel'>
<a href='http://ipietoon.blogspot.com' title='YOUR-POST-TITLE'><img alt='#'
height='120'
src='http://i306.photobucket.com/albums/nn252/cebong_ipit/video/canvas.png' width='180'/> </a>
</div>
<div class='panel'>
<a href='YOUR-POST-LINK' title='YOUR-POST-TITLE'><img alt='#'
height='120'
src='http://i306.photobucket.com/albums/nn252/cebong_ipit/video/canvas.png' width='180'/> </a>
</div>
```

</div>

</div>

- Replace the **red code** by your post link, replace the **blue code** by your post title, adjust **height and width** to your need
- You can add picture as many as you want by adding this code

```
<div class='panel'>
```

```
<a href='YOUR-POST-LINK' title='YOUR-POST-TITLE'><img alt='#'  
height='120'
```

```
src='http://i306.photobucket.com/albums/nn252/cebong_ipit/video/canvas.pn  
g' width='180'/> </a>
```

```
</div>
```

Thanks for using my template. I appreciate if you do not remove the credit footer. For more information email me at [cebong.ipit@gmail.com](mailto:cebong.ipit@gmail.com)

**Regards,**

**Ipit**
